Atherstone named top transit professional

Fairfield, California (Tuesday, September 6, 2016)—The City of Fairfield announces that its Transportation Manager Nathan Atherstone has been named as one of the *Top 40 Under 40* transportation professionals, as *Mass Transit* presents its eighth annual list of award winners.

Mass Transit, the only magazine exclusively dedicated to public transportation, honors those professionals who have made significant contributions to the public transit industry. Honorees were nominated by their peers and judged on criteria that included job commitment, industry involvement and contribution, achievement in his or her position, and innovation in his or her field.

“These young professionals have proven records of accomplishments, making a difference at their companies or transit agencies, in their communities and in the industry,” adds Executive Editor Leah Harnack. “It was challenging to narrow it down, but we are confident that this list of professionals will continue to play a significant role in public transportation for decades to come.”

Fairfield City Manager David White recognized Atherstone’s achievement as a wonderful accomplishment, and deserved peer acknowledgement for all of his hard work and dedication. White said, “Nathan is committed to ensuring a useful and outstanding transit system for our city, his leadership of Fairfield and Suisun Transit, and our relationship with MV Transportation are remarkable.”

Winners will be showcased in the September/October cover feature of *Mass Transit* magazine and online at www.MassTransitmag.com.
